Listing of Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

[This covers constant arc length and detector and tangent circle embodiment]

3. (Currently Amended) The spectrometer as recited in claim 1, wherein the curved grating has one of <u>athe</u> straight, sinusoidal and elliptical shapes.

Application No. 10/708,730 Amendment Dated November 6, 2006 Reply to Office Action of May 5, 2006

- 4. (Currently Amended) The spectrometer as recited in claim 1, wherein the spectrometer is in accordance with <u>athe</u> Littrow configuration.
- 5. (Currently Amended) The spectrometer as recited in claim 1. wherein the spectrometer is used as a wavelength dispersion element in a photonic integrated circuit.
- 6. (Currently Amended) The spectrometer as recited in claim 1, wherein the spectrometer is used as an isolated optical spectrometer using discrete components, the discrete components including slits, gratings, spectrometer casing detector, detector array and motor drive.

[This claim protects the embodiment in which spectrometer is used as isolated optical spectrometer]

7. (Currently Amended) A compact curved grating suitable for analyzing the spectra composition of an optical beam, the optical beam being incident on the compact curved grating via an entrance slit, the analyzed optical beam from the compact curved grating being incident on a detector, the compact curved grating comprising a plurality of grooves, the distance between the grooves being dependent on the location of the entrance slit and the detector, the center operation wavelength, a diffraction order, the refractive index of the medium and optionally on the location of the adjacent grooves, such that a path difference between two adjacent grooves is an integral of the center of operation wavelength.

wherein an arc length of each of the grooves is the same.

8. (Currently Amended) A method for analyzing <u>athe</u> spectra composition of an optical beam, the method comprising:

Application No. 10/708,730 Amendment Dated November 6, 2006 Reply to Office Action of May 5, 2006
